

# U.S. ARMY CORPS OF ENGINEERS – SAVANNAH DISTRICT TECHNICAL ASSISTANCE OPPORTUNITIES

October 16, 2024

Jared M. Lopes & Steven Lewis  
Savannah District

US Army Corps  
of Engineers®

# FLOODPLAIN MANAGEMENT SERVICES (FPMS)

- A riverine or coastal flooding problem
- Letter of request for support from a non-federal sponsor (City, County, or State)
- No cost to the non-federal sponsor (fully federally funded)
- Typical study timeline (12-18 months)
- Ex) St Mary's Spine Study

## FPMS Study Examples

Floodplain delineation

Flood hazard evaluation

Hurricane evacuation

Flood warning/preparedness

Comprehensive floodplain  
management

Flood damage reduction

Urbanization impacts

Stormwater management

Inventory of flood prone  
structures

# PLANNING ASSISTANCE TO STATES (PAS)

- A water resources related problem
- Letter of request for support from a non-federal sponsor (City, County, or State)
- Cost: \*50% cost share between the non-federal sponsor and USACE.
- Typical PAS study timeline (1-2 years)
- Ex) Tybee Ship-Induced Wave Study

## PAS Study Examples

Watershed planning

Flood risk management

Stormwater management

Coastal resiliency

Environmental  
conservation/restoration

Water supply and demand

Wetland delineations

Stream assessment

GIS mapping
